

The completed form should be returned to: IJSEM Editorial Office, Marlborough House, Basingstoke Road, Spencers Wood, Reading RG7 1AG, UK. Fax: +44 118 988 1834.

Paper no.

Paper title

.....

Before signing this form, please read the notes, and check whether you actually hold the copyright. Please make a copy of the form for your own records.

1. Tick the first of these boxes that applies (i.e. if box A applies, do not tick either box B or C):
You must tick one of boxes A, B or C (see Note 2)
- A. One or more of the authors is an officer or employee of the US Federal Government, and the article is therefore in the public domain.
 - B. One or more of the authors is an officer or employee of the copyright holder (e.g. British Government, CSIRO, Canadian Government) , *who retains copyright*, and this work was done in that capacity.

Please give the full name and address of the copyright holder:

.....

.....

- C. One or more of the authors owns the copyright in the above-mentioned article.

2. I/we* certify that I/we/the body of which I am the authorized signatory* own(s) the copyright in the above-mentioned article (where such copyright exists), and that the article has not been published elsewhere, including publication on the World Wide Web, is not under consideration for publication elsewhere, and of which the copyright has not been previously assigned.

Paragraph 3 does not apply if box A or B has been ticked

3. If the article is accepted for publication in *International Journal of Systematic and Evolutionary Microbiology* (IJSEM), then in consideration of the publication of the article, I/we/the body of which I am the authorized signatory* assign(s) the present and/or future copyright in this article, throughout the world and in any form and any language, to the publisher (Society for General Microbiology, which has been authorized to act on behalf of the International Union of Microbiological Societies in this matter). This assignment applies only to the extent allowable by law.

4. If the article is accepted for publication in IJSEM, then in consideration of the publication of the article, I/we/the body of which I am the authorized signatory*:

(i) agree(s) that the publisher may seek payment of fees by corporate bodies or individuals for the privilege of making copies of this article from the conventional printed form or from a form stored electronically, e.g. by online access or document-delivery services.

(ii) agree(s) to indemnify the publisher in respect of claims made against it by third parties for copyright infringement related to publication of the article, or concerning the authorship of the article or rights to publish the article.

5. I/we* certify that:

(i) the article is my/our* original work, has not been published before and is not being considered for publication elsewhere;

(ii) I/we* have obtained permission for and acknowledged the source of excerpts from other copyright works (copies of relevant permission correspondence should be returned with this form);

The Society for General Microbiology is a Company Limited by Guarantee, Registered in England (no. 1039582). Registered Office: Marlborough House, Basingstoke Road, Spencers Wood, Reading RG7 1AG, UK. It is also a Registered Charity (no. 264017).

Paper no.

(iii) to the best of my/our* knowledge the article contains no statements that are libellous, unlawful or in any other way actionable;

(iv) all major sources of funding or other support have been acknowledged and no conflict of interest is known to exist that could prejudice the article's impartiality, or that any known potential conflict of interest has been fully declared;

(v) all necessary approvals from institutional ethical and regulatory bodies have been obtained.

6. I/we* agree to abide by the following conditions of electronic publication:

In addition to publication of the article in conventional printed form, acceptance of this agreement also signifies agreement to its publication and/or storage electronically. The publisher may also arrange to include the article in electronic document-delivery services and databases.

When the article has been published in the journal, a PDF (portable document format) file of the **accepted manuscript** may be mounted on the author's own website or their institution's website or on a centrally organized repository (such as PubMed Central); however, **this PDF must not be publicly available any sooner than 12 months after the online publication of the article** and the author(s) must abide by the other conditions of acceptance laid down by the journal and set out at http://ijs.sgmjournals.org/misc/self_archiving.dtl †

Furthermore, if the accepted manuscript is deposited in PubMed Central, in any other centrally organized repository or on an individual's or institution's website, the following text (available as an RTF file from http://ijs.sgmjournals.org/misc/ijs_self-archiving_statement.rtf) must be included on the first page: †

This is an author manuscript that has been accepted for publication in *International Journal of Systematic and Evolutionary Microbiology*, copyright International Union of Microbiological Societies, but has not been copy-edited, formatted or proofed. Cite this article as appearing in *International Journal of Systematic and Evolutionary Microbiology*. This version of the manuscript may not be duplicated or reproduced, other than for personal use or within the rule of 'Fair Use of Copyrighted Materials' (section 17, Title 17, US Code), without permission from the copyright owner, International Union of Microbiological Societies. The Society for General Microbiology and the International Union of Microbiological Societies disclaim any responsibility or liability for errors or omissions in this version of the manuscript or in any version derived from it by any other parties. The final copy-edited, published article, which is the version of record, can be found at <http://ijs.sgmjournals.org>, and is freely available without a subscription 24 months after publication.

The PDF of the published version of the article must not be mounted on the author's own website or their institution's website or on a centrally organized repository. †

The article must not be mounted on a server for the purpose of commercial sale or systematic external distribution by a third party (e.g. via an e-print server).

7. I/we* assert the moral right to be identified as the author(s) of the article (*see Note 7*).

*Delete as appropriate.

†The conditions set out in these paragraphs are waived for those authors who have paid the immediate open access fee for their article.

<i>Signature of corresponding author</i>	<i>Name (please print)</i>	<i>Date</i>
<i>Signatures of other authors</i>	<i>Name (please print)</i>	<i>Date</i>
<i>Signature of copyright holder's authorized agent</i>	<i>Name (please print)</i>	<i>Date</i>

The Society for General Microbiology is a Company Limited by Guarantee, Registered in England (no. 1039582). Registered Office: Marlborough House, Basingstoke Road, Spencers Wood, Reading RG7 1AG, UK. It is also a Registered Charity (no. 264017).

COPYRIGHT: NOTES FOR AUTHORS/COPYRIGHT OWNERS

1. The journal's policy is for the publisher (Society for General Microbiology) to acquire copyright in all articles published where this exists. This is because ownership of copyright by one organization tends to ensure maximum international protection for the author and publisher against infringement, libel or plagiarism. It also enables the publisher to provide for the widest possible dissemination of articles, and to deal efficiently with requests by third parties to reproduce an article, or part of it, in accordance with a general policy which is sensitive both to any relevant changes in international copyright legislation and to the general desirability of encouraging the dissemination of knowledge.

2. To assign copyright to the publisher, the form should be signed by the copyright owner(s) and **the entire form should be returned to the Editorial Office by mail or fax**. Where the copyright is held jointly by a number of authors, the corresponding author may sign on behalf of co-authors who are not readily available provided that he or she holds written consent from such co-authors to act on their behalf. **If the copyright is not owned by the author(s), e.g. where it is held by the author's employer, box B in Paragraph 1 should be ticked and the form should be signed by the copyright holder's authorized agent.**

3. If copyright is held by the author's employer, the publisher requires non-exclusive permission to deal with requests from third parties to reproduce the article or parts of it.

4. In assigning your copyright you are not forfeiting your proprietary rights, including patent rights. **Nothing in this agreement shall restrict your rights as the author(s) or, in the case of work written by an author in the course of his or her employment, the employer's rights, to revise, adapt, prepare derivative works, present orally or otherwise make use of the contents of the article.** You may do this without seeking the publisher's permission, provided that the journal is acknowledged as the original source. See Paragraph 6 regarding electronic publishing.

5. All requests to reproduce your article, or a substantial part of it, in another publication in any form will be subject to your approval (which we will assume is given if you have not replied within four weeks of your approval being sought).

6. Photocopying

It is permissible to make a single photocopy of your article for the purposes of private study or research without seeking the permission of the publisher. However, **unlicensed multiple copying without permission is illegal**. The Society for General Microbiology participates in a number of photocopying licensing schemes, including those operated by the Copyright Licensing Agency (UK) and the Copyright Clearance Center (USA), non-profit-making organizations which offer centralized licensing arrangements for photocopying.

7. The UK Copyright, Designs and Patents Act 1988 requires that, for an author(s) to acquire the right to be properly credited whenever the work is published (the 'right of paternity'), the author(s) must assert this moral right in writing.

8. All enquiries about copyright and requests to reproduce material published in the journal should be sent to the Editorial Office.
